1. A military depot was observed between Ikhtiman and Verinsko (N 42-29, E 23-45), along the west side of the railroad track, 3-4 kilometers from Ikhtiman.
2. It is enclosed by barbed wire in an area, approximately 400 x 200 meters in size. Three large masonry buildings are located within the enclosure, and numerous fuel tanks with the same dimension as tank cars were observed on the ground.
3. The depot was occupied and guarded by soldiers.
4. The entrance to the depot from Verinsko is located directly to the west of the Verinsko railroad station. A moveable barrier guarded by a sentry blocks the entrance to the depot and closes the road.
